

THIRTY-SEVENTH YEAR OF PUBLICATION.

BROOKHAVEN, MISSISSIPPI, SATURDAY, JUNE 24, 1922

SUBSCRIPTION PRICE \$2.50 BY THE YEAR.

The Race Victory at INDIANAPOLIS The Road Victory at WICHITA Help You Choose Tires

500 miles at 94.48 miles an hour—a relentless grind over a rough-finished, sun-baked concrete and brick pavement at record-breaking speed—that is the gruelling test Oldfield Cord Tires underwent successfully at Indianapolis Speedway May 30th. They were on the winner's car for the third successive year and on eight of the ten finishing in the money, upholding the confidence successful race drivers have in the trustworthiness and ability of these tires to meet the greatest demands of speed, endurance and safety. Their records in every other important race have been equally as good.

Consider this achievement along with another test of Oldfield quality made at Wichita, Kansas, this past winter and early spring.

34,525 miles on rutted, icy Kansas roads, running day and night on a Studebaker stock car without a single tire change. This test was made by a group of Wichita automobile dealers in a tire, oil and gasoline economy run. Mayor Kemp of Wichita was official observer and made affidavit to the mileage and service given by Oldfield tires.

You may never subject your tires to the gruelling experience of Indianapolis nor the steady grind of bad winter roads, but it is good to know you can get such safety and mileage economy by buying Oldfield tires. Ask your nearest dealer.

165% Increased Business
The buying public is the surest barometer of the value of any article. Their approval of Oldfield value has been demonstrated by the increase of 165% in business for the first six months of 1922 over the corresponding period of 1921.

"The Most Trustworthy Tires Built"

The Oldfield Tire Company, Akron, Ohio

Unusual Abundance of Boll Weevils Necessitate Some Modifications in Methods of Poisoning.

For the past few weeks we have been accumulating records on the emergence of the boll weevil from nearly all of the cotton states and are finding universally, as we forecasted some months ago, that the number of over-wintered weevils is far greater than usual; in fact, in many districts where cotton culture have been made it has been found that we have in the fields now as many weevils as are ordinarily present a month later when the first summer-bred brood has started to appear. With anything like normal weather conditions this is going to mean a tremendously rapid increase in the weevil damage, and this will have an important bearing on the program to be followed by those using calcium arsenate for the control of the weevil.

In the first place, it should be remembered that we recommend starting poisoning when from ten to fifteen per cent of the cotton squares are fast as formed. In other words, such cotton will never start blooming unless the weevils are controlled and from the very outset 50 per cent or more of the squares are punctured. Under such conditions it is undoubtedly going to be necessary to poison earlier than ever before. Of course, there is no advantage in poisoning the cotton before the squares form as the weevils are continuing to emerge from hibernation during this period and furthermore they are doing the crop no harm. However, where such a heavy infestation occurs it will be advisable to make the first application just as soon as the cotton starts squaring, or about the time the plants average from 4 to 5 squares each. The regular poisoning schedule should be started at that time and continued along the lines of the usual recommendations for controlling this early infestation of weevils.

Another very important effect of this heavy infestation will be felt later in the season. When the weevils first emerge from hibernation and reach the cotton field they move around very little as long as they can find an ample supply of unpunctured squares for their use, but just as soon as the infestation becomes sufficiently heavy to puncture practically all squares these weevils start to move in search of fresh pastures. In an ordinary season this means unpunctured cotton. Of course, this condition would not arise if every one in a district was successfully poisoning his cotton, but this will not be the case this year, and just as soon as all squares in the un-

poisoned crops are punctured the migration to the poisoned fields will commence. This means that every day a large crop of new weevils will move into these poisoned fields, and it is going to take continuous, thorough poisoning to protect to maturity the crop which has been allowed to set by the earlier applications. These two facts mean just this: Successful weevil control this year is going to require more effort and more poison per acre than has ever been the case in the past. On the other hand, wherever the land is proficently fertile to justify such an effort, there is much more assurance of profit from the operation than is usually the case. The increase in the cost per acre brought about by the increased number of applications necessary will be far more than compensated for by the fact that the weevil damage without poisoning will be far greater than normal, and thus the margin of profit on the operation is tremendously increased. In other words, a heavy weevil infestation such as we have this year means a greater expenditure per acre for poisoning to successfully control it, but it also means a greater actual net profit in dollars and cents per acre, from the poisoning operations.

—B. R. Coad and G. A. Maloney.

Normal at Copiah-Lincoln A. H. S.

L. Russell Ellzey, director of the Copiah-Lincoln Normal, has issued a bulletin with announcements of interest to all teachers. The normal, which opens on July 17, will continue five weeks. Credits for work done will be recorded at the State Normal College and will apply on the course at that institution. The total expense for the term is a registration fee of \$5.00 and \$22.50 for board.

The faculty engaged for the normal is as follows:

W. F. Bond, State Superintendent of Education.
L. Russell Ellzey, Director.

Education — Mrs. C. W. Phillips, ex-lady principal Stanton College, special work in American School of Economics in Chicago.
English — Miss Lula Stevens, English Teacher in Franklin County A. H. S. six years and instructor in Summer Normal Three Summers.

Mathematics — Dallas Smith, Superintendent of Schools at Hickory, La. Experience in Summer Normal.

Hygiene and Physical Education — J. E. Ewen, graduate of Agricultural and Mechanical College.

History — Miss Maggie Flowers, A. B., Whitworth College.

Primary Work — Miss Quintard Bator, Teacher in City Schools of Jackson, special work in Primary Methods at Peabody.

Review Work in Subjects Preparatory to State Examination — Percy Scott, ex-teacher in City Schools of Biloxi.

Matron — Mrs. Barlow.

Sewerage System Favored.

Crystal Springs, Miss., June 20. — The rapid influx of citizens here is reviving the agitation for the installation of a sewerage system. Health authorities are threatening to prosecute property owners for the unsanitary condition in which the business district is kept. The proposition which is receiving favorable consideration is a bond issue to be floated for a sufficient sum to put in a system to take care of the business district and later extend the system into the residential districts.

The Kiwanis Club of Jackson has begun holding "sunrise meetings" at 6 a. m.

Former Brookhaven Resident Endorses Mrs. Flowers.

Mrs. Bennie Dunn Flowers, Brookhaven, Miss.

Dear Mrs. Flowers:

While I feel personally the very highest regard for the other candidates for County Superintendent of old Lincoln county, yet I have such a high regard for you personally, your worthy school attainments, your years of ripe experience in the county, and your continued success as a school woman, I am writing to say that I have written to my father, brother, and sister, Lula, asking them to cast their votes for you. I do hope they will so vote.

The Superintendent of Schools of this county where I now live is a woman, and has been for two terms of that office. She has made eminently good in that office, and the people intend to re-elect her for a third term. The State Superintendent of Education of Texas is a woman, who has held the position for two terms. She, too, has made good in her office. A woman has a peculiar fitness for the office of school superintendent that gets right next to both the school trustees, the pupils and the patrons. If the people of Lincoln county elect you, I feel sure they could not elect one more worthy and fitted for that position, and could not elect one who would give better service and satisfaction than you will give them.

With very best wishes for your success, I am

Sincerely,
M. McCullough.

Large Crowd Coming To-morrow.

Indications are that more than 100 Jackson citizens will compose the delegation that goes to Brookhaven early Sunday morning to conduct an evangelistic service under the auspices of the Bible classes of that city. All who are going are urged to furnish their names to Mr. Julian Alexander or Mr. Frederick Sullens. A portion of the delegation will make the trip by rail, and others by automobile. —Jackson News, Thursday, June 22.

The coming of these gentlemen on their fine mission of service and "good will to men" is being most pleasantly anticipated not only by the large Men's Bible Classes in Brookhaven, but by the community. The meeting of all local classes with the Jackson visitors and others of this vicinity will be held in the Lampton Auditorium at 9:30 Sunday morning.

We believe this is the second "soul-winning trip" since the Gypsy Smith meeting, the Jackson men have made — the other being to Vicksburg where they had an audience of 2,500. There is expected a large congregation of men here Sunday morning at the hour named.

Miss Sparks and Miss Quin to Lake Chautauqua.

Miss Edna Earle Sparks and her lovely friend, Miss Annie Beatty Quin of Meridian, will go to Lake Chautauqua, Crystal Springs, for a week-end camping party in which Dr. Parsons of Vicksburg will be host. Mr. and Mrs. Hackett, of the Hill City, will chaperone the party which will be delightfully domiciled in the "Rose and Rest Awhile" cottages on the banks of Lake Chautauqua.

Miss Quin came at this time to sing at the wedding of her friends, Miss Ada McDowell and Mr. Joe Frazer Smith, and will continue her visit to share in this delightful outing. —Clarion-Ledger.

JOHN BEAVERS CAPTURED IN ARKANSAS

Slayer of Robert D. Moreton Arrested and Now in Jackson Jail.

It has not been generally known perhaps, but it is a fact that ever since Christmas eve, 1921, when Robert D. Moreton was shot and killed at Quenton, his brother, Mr. S. E. Moreton has been relentlessly pursuing the man, John Beavers, who did the shooting.

His efforts and the active support, especially in the past two months of Sheriff Mack Graham, of Covington county, and Deputy Tom Boutwell, and Sheriff R. C. Applewhite of Lincoln county, were rewarded by the message yesterday announcing the arrest of Beavers.

Beavers was located at Brinkley, Ark., several weeks ago, and Deputy Boutwell was sent there by Sheriff Graham where the arrest was made on the Missouri line.

Beavers is now in the Hinds county jail at Jackson where he will remain until delivered to the Sheriff of Covington county which has jurisdiction.

Beavers' wife is in Brinkley and he has relatives in Sullivan's Hollow in this vicinity.

Mr. S. E. Moreton states that Beavers shot down a man in cold blood about eight years ago, his brother being the second victim known.

The particulars of the tragic death of Mr. R. D. Moreton are too well known to need repetition at this time.

Mr. Moreton has not received full particulars of the arrest but will give them for next Wednesday's issue of The Leader.

Expert Will Teach Swimming Here.

Swimming will doubtless become one of the city's most popular pastimes, now that Mrs. F. H. Hollingsworth has decided to give swimming instructions at the City Playground swimming pool. Mrs. Hollingsworth, despite her youth, is one of the expert water-nymphs of the country. Her graceful diving at different California watering places has been filmed by every movie picture company of California and her photo adorns all the athletic and physical culture magazines.

The young people of Brookhaven feel elated at the opportunity of taking swimming lessons from this proficient instructor, whose teachings not only cover the graceful art of swimming, but also include proper breathing and the way to obtain the greatest benefits from the standpoint of health. She will begin giving lessons Monday.

EDUCATION AND COUNTRY LIFE.

The people who think that education unfits young people for country life should note what was recently accomplished at Antrim, Ohio. There they planned a new building as a three year high school, and funds were raised partly by private subscriptions and labor. Volunteers cut and hauled logs and lumber, and split and hauled the stone.

The next summer 12 of the 25 pupils went to normal school, and later 15 pupils from this rural high school were teaching in nearby schools. Such a school that is fitting young women to teach in its own locality, is a wonderful force for building up a country neighborhood.

TWO SPOTS.

The people who go to cities on account of their craze for "society" are usually awfully lonely because they don't know anybody.

Not all who compete in the boys and girls clubs can win, but those who try and lose the better off than those who don't try.

Many families who never do anything to give the young folks a good time, complain because they drive all around the country attending dances.

Women to Back Move.

Crystal Springs, Miss., June 20. — Seeing that Winona is preparing through its generous citizens to build a country club some of the enterprising women of the town are proposing to raise a fund by popular subscription to buy the Chautauqua grounds here and convert them into a country club and recreation grounds. There is a big hotel on the grounds, an artificial lake covering forty acres abounding with fish, and supplying bathing and boating facilities, and an auditorium that will easily seat 1000 persons.

MT. ZION NEWS.

Mrs. Willis Barlow of McComb, came Sunday to visit her parents, Mr. and Mrs. Warren Minton.

Mr. Floyd Britt is welcomed home and is enjoying a brief vacation since his graduation from Mississippi College.

Mr. and Mrs. J. W. Montgomery, and Mrs. J. T. Morris and daughter, Louise, spent Sunday in the home of Mr. and Mrs. Joe Lea.

Mr. and Mrs. James Lea, of McComb, and Mr. and Mrs. T. R. Lea, of Crystal Springs, who have been visiting their parents, Mr. and Mrs. W. C. Lea, left Sunday for the destinations mentioned.

Miss Helen Creed, of Hattiesburg, is visiting her friends, Mrs. Pearl Allen.

Mrs. Ethel Britt who remained over after Mississippi College commencement to be a guest of Miss Thelma Connerly, has returned home.

Mr. and Mrs. E. R. Douglas went to Nola, Sunday to visit Mr. Douglas' parents.

Misses Elsie Montgomery and Ira Smith are missed from our community. They are attending the Normal at Hattiesburg.

Mrs. Hugh Cousins and little son, Stevenson, left Sunday for their home after having spent a while with her parents, Mr. and Mrs. Warren Minton.

TRAVELING MAN DIES SUDDENLY

A. L. Brown Victim of Heart Failure at Local Hotel Friday.

A. L. Brown, traveling salesman for the N. K. Fairbanks Co., died suddenly Friday evening at 7:30 at the Inez Hotel. He had been suffering Thursday and Friday with an attack of acute indigestion. Friday evening he notified the hotel management that he would not go in to supper, but would look up a physician instead. It is not known whether or not he consulted a doctor. An examination after death by a local physician brought out a statement that he died from heart trouble, aggravated by indigestion.

The body was removed to the Hartman Undertaking parlors, awaiting the arrival of the father or the deceased, whose home is at Ridgeland, a short distance north of Jackson. Until the coming of the father no plans for the removal of the body can be made.

Mr. Brown leaves a wife and family at New Orleans, where he has made his home since entering the employ of the Fairbanks Company some years ago.

Y. M. C. A. WORK AT A. & M. COLLEGE GROWS

Annual Report of Secretary Shows High Standard of Work Being Done.

A. & M. College, Miss., June 17. — If there is any one feature of life and activity connected with the Mississippi Agricultural and Mechanical College that is distinctive and outstanding more than others that feature is the Y. M. C. A. The active membership in the Association, is made up largely of students and the building maintained by the organization is really the center of the College, universal, religious, social and otherwise.

The organization is fortunate in having for its principal executive officer such a personality as Ben F. Rogers, Secretary, who has been in charge for several years past, whose work speaks eloquently for his adaptability to the trust committed to him.

In his recent annual report to the Board of Trustees and Directors, Mr. Rogers makes reference to the outstanding features connected with the Association work. Among other things he wrote:

"The results of the year's work cannot be accurately set forth or estimated. I think the parable of the sower describes the conditions surrounding the work of any religious organization. Some seed fall by the wayside and are devoured by the fowls. Some fall upon stony places and fail to germinate. Some fall among thorns and are choked out. Others fall upon good ground and bring forth fruit thirty, sixty, and a hundred fold."

"Our building has continued to be in a very real sense the center of social and religious activities of the campus. The building has not been kept as tidy at all times as we would like. This, however, has been true largely on account of the fact that it probably has a greater and more constant use than at any time in its history. The game room on the lobby floor is rarely ever vacant except after call to quarters. Our reading room has been well supplied with the magazines and papers and has been used by a considerable number of both students and others on the campus. We have had quite a deal of trouble in keeping games and magazines. There seems to have been a number who have been very inconsiderate of the rights of others and have had no hesitancy about taking for personal use that which was intended for the use of the entire student body. To prevent games, checkers and magazines from being taken from the building is one of our petty vexing problems. If any member of the Board has a solution to offer, we would be very glad to have him offer it."

"In our social activities last session I feel that we set a high standard, but I am equally certain that our social program this year has been just as excellent and even better in some respects. New students were met and welcomed and aided in every way possible in getting settled and ready for work."

"I have attended a great variety of informal social affairs, but I am sure I have never been present where people had a better time socially than did our campus people when the three classes of the Campus S. S. and the Y. M. C. A. entertained this winter. I made special mention of this social not because I had the pleasure of providing the means of much of the entertainment, but to bring before this Board a renewal of the expression of my conviction that we do not have enough of such wholesome association."

Mr. Rogers includes in his report the following reference to the campaigns for funds to support the representative of Mississippi A. & M. College in the Y. M. C. A. field in China:

"We have been campaigning for funds with which to support our representative in China, Mr. O. R. Magill, resulted in practically doubling what we secured last session. We have collected for this fund up to date \$1381. We will probably collect \$250 additional. It may be of interest to the Board to know that this is several hundred dollars more than has been collected in the South has contributed to Missions. In addition to this our students made a real sacrifice and contributed \$259.86 for the relief of needy European students. This was done by denying themselves one meal entirely and by eating a typical Austrian student meal, donating the amount thus saved."

Mr. P. P. Williams reports a yield of seventy-seven good-sized Irish potatoes from six rows out from one potato and planted in April. This is the champion potato story this year.

Knights of Columbus to Entertain.

The local Knights of Columbus, numbering about thirty, are pleasantly anticipating the coming of their half hundred fellow Knights from the State Capital tomorrow morning. The visiting Knights will be making one of their three visits planned for Brookhaven, and for other towns, during the year. The local Knights assisted by ladies of the Altar Society, will serve a luncheon at the St. Francis School building during the noon hour on Sunday before the concert announced for two-thirty.

Lodge Notice.

Special Communication Brookhaven Lodge No. 241 F. & A. M. Monday, June 26 at 7:00 o'clock P. M. for the purpose of conferring M. Degrees. All Master Masons in good standing cordially welcomed.

By order of the Worshipful Master.

R. B. Wall, Sec.

PLANS ARE OUTLINED FOR BROOKHAVEN TRIP

Jackson Citizens Going in Force Jacksonians Coming in Force to Lincoln Capital Sunday

All Jackson citizens who are willing to make the trip to Brookhaven Sunday morning to participate in the joint meeting with the Bible classes of that city, and who have not already signed their willingness to go, are requested to kindly notify Mr. Frederick Sullens or Mr. Julian P. Alexander.

It is expected that a delegation of at least a hundred will make the trip, and the party may number 150 or more.

Confidence is felt that the Brookhaven meeting is going to be an inspiring event, and mutually beneficial to both Jackson and Brookhaven citizens.

It will be a notably large gathering, and arrangements have been perfected to hold the meeting in the auditorium of Whitworth College. All who make the trip by auto are requested to go direct to the college on arrival.

The Jackson delegation will make its musical program a feature of the meeting. Roger Philip will be there with his trombone and there has not been a greater trombonist in this country since Arthur Pryor quit playing that instrument. —Jackson News.

Mr. Frederick Sullens, editor of the News, spoke before the Griffith Memorial Baptist Church Wednesday evening on invitation of the pastor, Rev. Geo. W. Riley, ex-Brookhaven pastor. Mr. Sullens' subject was "Getting Right and Living Right". Mr. Sullens will be in the party tomorrow in Brookhaven.

Secretary of War Weeks Outlines Duties of Citizens.

In speaking before the graduating class of Virginia Military Institute, Secretary of War Weeks said:

"Your country with such training are better fitted for citizenship than those who lack it."

"I appeal to you", the secretary continued, "whatever may be your vocation after leaving this institution to devote some of your time to the affairs of your country. It is not necessary for you to hold public office, but it is essential that you give to your country the benefit of the training and education you have received here."

"Resist all attempts to turn from the representative form of government created by the constitution and take an active interest in the affairs of the community to the extent of seeing that only wise, trustworthy and courageous men are elected to public office."

"This is the duty of the good citizen and, unless we can attain from such schools as this and the multitude of schools maintained throughout the country men capable of performing these important duties of citizenship, then we must face the certainty of failure of popular government."

McCormick Improves After Suffering Gland Operation.

Chicago, June 20. — Harold F. McCormick, chairman of the executive committee of the International Harvester Co., who underwent a gland operation last Monday, is improving rapidly, according to reports today.

The virile young man from the army of unemployed who is said to have received "less than 500" for his part in the operation, has dropped from sight. One report was that the young man, who provided the multimillionaire with the intestinal gland had been secretly removed from the McCormick suite of rooms in the hospital and spirited away. Nurses and internes at the hospital are maintaining the utmost secrecy.

Later—Dispatches today intimate McCormick is seeking personal youth through the gland operation.

Woman Nominated for U. S. Senator.

St. Paul, Minn., June 20. — A woman has been nominated for U. S. Senator by a major political party for the first time in the history of the country.

This became apparent tonight when returns from half the precincts participating in Monday primary election showed Mrs. Anna Dickie Olsen had captured the Senatorial nomination of the Democratic party from two male opponents.

When 1,715 of the state's 3,348 precincts had reported, Mrs. Olsen had a margin of 4,200 votes over Thomas Meighan, her nearest opponent, the count then standing: Mrs. Olsen 18,212; Meighan, 14,029.

Opposing Mrs. Olsen in the November elections will be Minnesota's junior Senator, Frank B. Kellogg, who was nominated on the Republican ticket with other state officers endorsed by the party's state convention. Henry Shipstead, Farmer-Labor candidate also will be an opponent.

Knights of Columbus to Entertain.

The local Knights of Columbus, numbering about thirty, are pleasantly anticipating the coming of their half hundred fellow Knights from the State Capital tomorrow morning. The visiting Knights will be making one of their three visits planned for Brookhaven, and for other towns, during the year. The local Knights assisted by ladies of the Altar Society, will serve a luncheon at the St. Francis School building during the noon hour on Sunday before the concert announced for two-thirty.

"HE WHO LOOKS BEFORE HE LEAVS BUILDS UP CYPRESS AND BUILDS FOR ETERNITY."

"Too bad 'the Wood Eternal' wasn't used at first. Then we wouldn't be bothering with this fixing up job."

But we can do the next best thing and make all replacements of

"TIDE WATER" CYPRESS "THE WOOD ETERNAL"

thus making each repair job the last one in just that spot. Why replace rotted wood with wood that will rot out quickly? Just keep in mind that with Cypress you "build for keeps."

BUY THE GRADE THAT FITS THE JOB.
For many odd jobs of repairing the lower grades are exactly the thing. Knowledge of this fact gives wise buyers an advantage over those who simply order "some lumber." You see the point.

Write us for list of FREE PLANS for farm buildings.
